

**ROAD WORK ALERT: Fiber Optic Cable Deployment Project USVI,
Asphalt Restoration and Line Striping at Peterborg**

PROJECT TITLE:

Fiber Optic Cable Deployment
Project, USVI

ISLAND:

St. Thomas

LOCATION:

Peterborg

DATES:

February 1st, 2021 – March 27th, 2021

HOURS OF WORK:

7:00AM-5:00PM

ROAD ADVISORY:

Motorists can expect delays due to partial road closures and lane closures. Please exercise caution when traveling in these locations.

PROJECT SUMMARY:

New Fiber Optic cable deployment to interconnect existing cell sites with the purpose of creating a more robust network, which will improve capacity, reliability, resiliency and increase performance of the existing communication network during natural disasters situations. It will also set the base for future deployment of new network technologies in the USVI. Phase I, of the project includes some milling and re-asphalt/road reconstruction where the roadway has been impacted. Roads will be partially closed for safety reasons. No parking will be allowed during project working hours. All vehicles must be removed prior to the beginning of construction. (See attachment for details.)

Contractor: Bermudez Longo Diaz – Masso Inc.

Project Owner: AT&T Mobility, USVI.
